

DATASHEET

StaffOne –Competence Development

STAFF COMPETENCE VISIBILITY

StaffOne provides management with a view of the competency skills sets of staff and subcontractors. It also aligns quality and skill sets to drive improvements by identifying missing skill gaps with current or future service needs.

STAFF ADMIN

StaffOne delivers administration control to online timesheets, contract management, payroll, staff satisfaction, target discussions and development plans.

TRAINING

StaffOne captures training curriculums to drive the continuous improvement of the staff base competency levels and to train new recruits as needed. Project delivery services can be very specific and not all the training requirements are focused towards technology. StaffOne supports every aspect of competency development within a company's organisation.

KEY FEATURES

-  Tracking and Reporting on Staff Target Discussions
-  Dashboard Views of Staff Competency Levels
-  Quality Score Cards
-  Certification
-  Skill Mapping Against Jobs
-  Staff Central Database

-  Staff Contract Management
-  Timesheet Control

" StaffOne enabled us to improve acceptance lead-times, meet onsite KPI quality targets and to enhance the work efficiency of staff, vendors and management"

President Lemcon USA – Luc Marceau

BENEFITS

Vendor Management

Using the quality management system (QMS) of StaffOne, customers can monitor the performance and quality of their subcontractor against the set KPI targets. StaffOne ensures payment of invoices when site works are fully completed.

Centralised Resource Database

Capturing all skill sets and competences into a single source database enabled customers to view availability of skills and staff in order to meet service requirements.

Service Delivery Assurance

The continuous corporate development of staff empowers the sales to meet the technical requirements of complex services. StaffOne drives the development of groups, individuals and subcontractors to always improve their performance, delivery and skill sets.
