

POWERFUL WEB-BASED VENDOR MANAGEMENT PLATFORM

VENDOR - ONE

The VENDOR-ONE module is a digital platform designed to onboard and manage vendors from any industry, helping businesses to go paperless; interact and transact with vendors, suppliers, landlords, service contractors, etc.

VENDOR-ONE also enables to manage contracts, insurance and related documentation and other vital information in a centralized location. Thus, enabling businesses to achieve better decision-making capabilities and saving time.

SURVEYS

VENDOR-ONE survey enables businesses to setup and issue multiple surveys, by defining different business rules. Also allowing vendors to fill in the required forms, without logging in to the application

FORMS

VENDOR-ONE enables to create predefined templates to be sent out as digital forms to vendors triggered by instances such as survey responses, and then being able to capture additional data in the form

THIRD-PARTY SYSTEMS INTEGRATION

VENDOR-ONE can be easily integrated with any third-party systems such as Avetta (the supply chain and risk management platform), ORACLE and other systems

DOCUMENT MANAGEMENT

VENDOR-ONE adopts the best practice of digital transaction management to create, e-sign, and exchange documents. It also enables to set milestones and define business rules for vendor documents
